##### ACTIVITIES & TOURS

###### Campus Tours

Campus tours can be arranged by the Alumni Relations team. We can facilitate a walking tour through campus or give you information for a self-guided tour.

###### Building Tours

Building tours are a wonderful way to reacquaint yourself with the department as it is now; with ever changing technology some of the labs are very different than how you remember them. Please note however, that building & lab tours must be arranged separately and are subject to availability of the building during parts of the year.
